# Alan Facchini

*SOFTWARE ENGINEER*

✉ costafacchini@gmail.com       📍 Porto Belo, Brazil       📞 +55 48 999290820

## Profile

Software Engineer with more than a decade of experience in creating and maintaining systems. He has been working with Ruby on Rails for seven years and React for four years.

Focused on solving problems, producing tested, refactored, clean and effective source code. Dedicated to the development process, it does not dispense with the use of agile methodologies.

Able to self-manage effectively during projects, as well as collaborate as part of a team.

Current work stack:
Ruby on Rails, Nodejs, Postgres, MongoDB, Redis, RabbitMQ
